

How Time Slots are Determined when Making a Reservation or Blocking off time

User clicks on a day

(1) Scheduler: What are the time slots for this day? e.g. 4/30/2013

(2) Scheduler: Check the **reservation types** table

(3) Scheduler: Is there a *specific* **reservation type** for this date (4/30/2013)?

Yes

Use the time slots in this setting.
For 4/30, Time slot is 20 minutes

No

Use the time slots in the DEFAULT setting.
Default time slot is 15 minutes
